Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

INFORMATION, INC., NEW YORK, NY, US; HUANG QINGWEI ET AL: "Micro-structure of reaction-bonded silicon carbide" XP002264185 Database accession no. E2000455311603

2. The subject matter of claims 1 to 7 appears to meet the requirements of PCT Article 33(2) and (3). The reasons are as follows:

D1 discloses the use of a SiC-based material as a lining for an aluminium-smelting furnace. However, it does not disclose a material containing inclusions, of which at least a portion is α -SiC, in a β -SiC matrix.

The other documents disclose SiC-based materials containing the α -SiC and β -SiC varieties for different uses.

3. The subject matter of claim 1 appears to meet the requirements of PCT Rule 13.1 (unity of invention) because the uses all relate to improved resistance in harsh environments.
